Couplemate Trailer Parts

Selling quality trailer parts Australia wide since 2001

Couplemate Trailer Parts started from humble beginnings in 2001 selling trailer parts to the local Brisbane area. Presently we manufacture and distribute caravan and trailer parts, trailer axles and independent suspension kits to Brisbane, Sydney, Melbourne in fact Australia wide. Our two warehouses are 3000 square meters each, packed full of caravan and trailer parts. If your towing a caravan, camper trailer, boat trailer, box trailer or heavy vehicle trailers we've got your trailer parts covered. Our company is family owned, old fashioned and family orientated. We offer warranty on all trailer parts that leave our Wynnum warehouse.

Our staff have over 60 years experience in the trailer parts industry. Whatever the problem you might have with your trailer, Bruce and Mike are there to help provide the answers and guide you to the right trailer parts to suit your application. Here at Couplemate, we are asked all kinds of questions about us, what we do and how we can help folks just like you. Here is a few of the questions that we get asked:

Question: I am broken down in the middle of no where on my family vacation and I need a few parts urgently! Do you have what I need in stock and how quickly can you get it to me?

Answer: We are here to help get you and your family back on the road, and we specialise in breakdown trailer parts services! Whatever you need, if it is in store we can get it out for you within 24 hours (usually sooner)! Whatever you have broken there is a great chance we have it in stock, and if we don't have in our warehouses we will do our best to find out where it can be found and how long it will take to get to you!

Question: Do you offer a warranty for your trailer parts?

Answer: All Couplemate Trailer Parts are manufactured and selected for sale on the basis of quality. We can offer you our unconditional guarantee that the products you have purchased from us will perform to manufactures specifications.

Question: When can I expect delivery of my trailer parts order?

Answer: Ordered trailer parts are generally dispatched the same day as ordered (except for axle orders). Trailer Axles are dispatched 48 hours from order because they are made as orders arrive. We stock pre-made axles for single axle trailers and for tandem trailers. So ask us if we can get your axle on transport the same day, if the part is in stock we will do our utmost to get it to you.

Choosing the right trailer parts.

The professionals at Couplemate Trailer Parts can make upgrading your axles, brakes, springs, couplings, wheels, brake controllers and more a whole lot easier! We will help you select correct springs, axles and brake parts for your caravan or trailer setup. Unless you are lucky enough to be in a group of travelers or friends that know trailer parts the right selection can be difficult. Our job is to help you select the right parts over the phone, and for our professional sales team, that's no problem! Tell us where you are traveling or intend to travel over the coming years and we can offer you a complete towing setup that will provide a happy holiday experience.

In our experience, people have different requirements for their caravans, camper trailers or boat trailers, some will travel through a dusty track out to Birdsville while others will follow the highway north until they drive to the ocean. Whatever your towing needs or requirements we are here to help, let us guide you through your trailer build or annual repairs and trailer maintenance. Here are a few examples of how your trailer might be configured:

- Highway use. Caravans, campers trailers, motorbike trailers, boat trailers, horse floats, tandem car trailers, builders trailers
- Off-road Use. Off-road caravans and camper trailers
- Boating (marine). Single axle boat trailers, tandem axle boat trailers, tri-axle boat trailers, single hull or multi hull boat trailers
- Utility (work). Builders and tradesman's trailers, catering or vendor trailers, excavator or heavy earth moving vehicle trailers
- Extreme off-road. Off-road caravans and camper trailers
- Weekenders. Box trailers, motorbike trailers, enclosed race car trailers

When building or modifying a trailer there are two critical issues that will decide your purchase:

1. Weight you wish to carry.
2. Your budget

The more weight you wish to carry, the higher the cost. It's a fact that many trailers become overweight due to added loads that accumulate over time. Gas bottles, generators, tools, spare fuel loads all add up and are often not taken into consideration when the trailer is originally purchased. Updating and maintaining your trailer is imperative for safe and hassle free towing.

We can confidently offer axle and suspension systems that are reliable and will give you a good chance to endure that adventure to Cape York or simply tow your load to the dump. Trailers and caravans can vary wildly in their design and construction, custom configuration of trailers and caravans is common and Couplemate Trailer Parts can offer the right advice and trailer parts for your rig. There is no standard setup or standard axle width so take your time and measure carefully before ordering. Ask us questions to get the right advice and towing equipment for your application.

Call Bruce or Mike on 07 3348 3822 and talk to the experts about your intended purchase.

Prices and Ordering

- Caravan or Trailer EOM and Dealers should also enquire about wholesale trailer parts prices.
- Talk to our expert sales team about wholesale prices.
- One off trailer builds are considered to be factory outlet prices.
- Pickups from our Brisbane warehouse are OK but please place your order first so we can have it ready for you.
- Couplemate Trailer Parts Pty Ltd operates two warehouses. We take web orders for pickup or dispatch.
- Internet orders indicating pickup are automatically approved appointments.
- You can reach Couplemate Trailer Parts Pty Ltd between 8am and 5pm EST Monday to Friday. No Saturdays unless by appointment.
- Don't worry, just because you haven't called us or popped into our store, doesn't mean we can't help.

We look forward to hearing from you and helping you get on your way with the right trailer parts that will satisfy your towing requirements for years to come.

TERMS

Specifications and prices that are provided on this website are subject to change without notice. Any technical information provided on this site may vary from state to state. Measurements and fitting instructions are to be used as a guide only; final measurements should be the responsibility of the individual. All data on this site is the copyright of Couplemate Trailer Parts Pty Ltd and shall not be copied without the written permission from the Director of the Company. Written permission could be via email. You may be permitted to cut and paste with an acknowledgment link back to the Couplemate website.

PAYMENTS

Wholesale accounts are available to businesses with a \$500 minimum monthly spend. Account terms are strictly 30 days; any accounts going over 45 days will be subject to legal action bulk orders. Special prices are available for bulk orders. POA.

TRAILER AXLES

All manufactured axles require a non-refundable deposit before commencement.

WARRANTY / RETURNS

Any products thought to be faulty can be returned to Couplemate Trailer Parts Pty Ltd for investigation at the customer's expense. We reserve the right to determine whether the item/s are faulty or have been incorrectly used or mistreated. We are happy to accept any unwanted stock within 7 days of invoice. Returned items must be in "as new" condition for resale. Any specially ordered axles are not returnable, example IRS, Overlay and Drop Axles. Couplemate Trailer Parts Pty Ltd charges a re-stocking fee of 15% will apply to any authorised returns plus freight if the goods returned are not subject to warranty. If the goods are subject to warranty, Couplemate under our terms and conditions will replace the goods and pay all freight inbound and outbound. All products sold by Couplemate carry a lifetime warranty under our terms and conditions, when used in accordance with our recommendations found on each product. Except for disposable parts. Example, bearings, brake pads, etc
